Chroma
Color Corporation

Custom Color Development Capabilities

Custom Color Solutions

Chroma Color develops custom color concentrates tailored to your specific resin, processing requirements, and end-use applications.

Expert Color Matching

Our technical team delivers precise color matching, custom shades, and specialty effects with consistent results across a wide range of resin systems.

Advanced Formulation

We combine colorants, additives, and innovative technologies to optimize color, dispersion, processing efficiency, and product performance.

Technical Expertise

Our experienced specialists provide collaborative development, laboratory testing, and technical support from initial concept through production.

Quality & Cost Efficiency

Our highly loaded color concentrates deliver consistent quality, reliable performance, and an exceptionally low cost in use.

Let's Develop Your Next Color Solution.
