

PVDF Color Concentrates

APPLICATION:

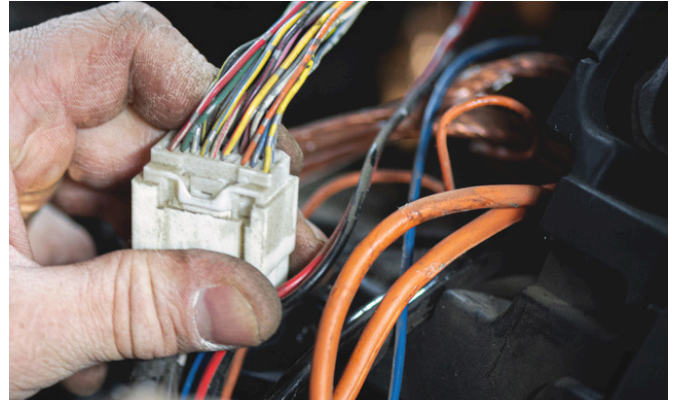

Two ranges of high quality, environmentally friendly PVDF color concentrates.

The "Standard" range is composed of strong, bright colors that offer excellent economy in use.

The "Performance" range offers best-in class heat release and low smoke characteristics coupled with excellent outdoor color fastness characteristics.

Applications Include:

- Extruded tube and conduit
- Wire and Cable insulation & Jacketing
- Molded parts

COMPOSITION:

PVDF color concentrates are manufactured using 100% virgin material. The base resin is a highly compatible grade of PVDF homopolymer.

The color concentrates are made without the intentional use of lead, hexavalent chromium, cadmium, mercury, PBB and PBDE or other substances known to be hazardous to humans or the environment.

Technical assistance is available.
